

OGDEN MOBILE ECOCENTRE

DATE: Saturday, June 8, 2024, from 10:00 am to 2:00 pm

LOCATION: Ogden Town Hall, 70 Ogden Road

The Mobile Ecocentre is dedicated to the recovery of materials. There will be a truck from **Ressourcerie des Frontières** to collect recyclable or resale items and materials. There will also be containers for the recovery of wood, metal and for waste that cannot be recovered.

At the site, you will have to deposit your materials in the containers. Volunteers will direct you to the appropriate location.

VOLUNTEERS NEEDED: For the program to be successful and repeatable, we need volunteers. Write to agent@munogden.ca or call 819-876-7117 ext. 4 to be added to our list of volunteers for this day. Thank you for your time!

A few instructions to respect when bringing in your residual materials:

- Bring proof of residence in Ogden (driver's license or tax bill);
- Sort the materials in advance in your vehicle or trailer. This will make it easier for the volunteers to do their job and allow for quicker unloading;
- **Materials not accepted:** garbage and recycling that are part of the weekly collection, contaminated soil, asbestos, medications and hazardous waste such as aerosol cans, vehicle batteries, cleaners of all types, containers and paints, varnishes, solvents, pressurized containers, fire extinguishers, fertilizers, herbicides, insecticides, pesticides, poisons, chemicals, swimming pool products, oil, grease and used filters, fluorescent tubes, containers and gas, propane and gasoline;
- Reasonable quantities are accepted. The Mobile Ecocentre is not intended for contractors or residents who wish to dispose of new construction or renovation waste. These must be disposed of privately.

NOTE THAT:

1. You can dispose of hazardous materials at any time at the **Régie intermunicipale de gestion des déchets solides de la région de Coaticook**.
2. Fluorescent lights (neon) and paint containers can be deposited at the BMR of Stanstead.
3. Motor oils and their empty containers, oil filters, antifreeze and aerosol cans are accepted at the LP (Harnois) garage in Stanstead.
4. Batteries for small appliances can be dropped off at Informatique ASR at 9, Passenger Street in Stanstead.
